

To Our Way of Thinking, Only the Best Aquaculture Practices Produce the Best Farm-Raised Seafood in the World

We are proud to be a Governing Member of GAA

Sea Port Products proudly embraces the Best Aquaculture Practices (BAP) program and congratulates the Global Aquaculture Alliance for leading the way in setting standards that assure responsible aquaculture production around the world.

The health of the resource, the health of the world's people, and the health of the environment all depend on a collaborative effort to continuously improve the farming practices of seafood. Our Go Blue!® Program supports producers and farmers who "think green" and "Go Blue!"

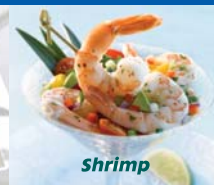

If you're thinking green, and need a reliable supplier that thinks the way you do, why not give Sea Port a call? We'll help you Go Blue!

Striped Pangasius

GreenShell™ Mussel

Shrimp

Tilapia

Sea Port is here to fulfill all your seafood needs
